December, 1982

The December, 1982 meeting of Chapter 67 was called to order by President Dick Ervin. Dick asked the visitors present to introduce themselves, and there was a bunch of 'em this month. This month's visitors were; Bill Smith, Steve Drybread, Joseph Schmid, Terry Newby, Chuck Ryder, and Bob Messci. We'll take this opportunity to welcome each and every one and invite you all back to join our next meeting.

President Ervin asked if there was any old business to discuss, there was none. The President then asked if there was new business to discuss. John Adolfsen stated that the Chapter was in need of a vise. A vote was taken, and Don Dole was appointed to make the purchase. John Adolfsen also mentioned a winter banquet. A vote was taken and President Elect Don Barnhart was asked to make provisions. More on this at a later issue.

Dues Due

December is the time of year we all look forward to, Santa Clause and time to pay chapter dues. Dues for '83 remain at \$15.00, (don't let Governor Orr get word of that!), and a donation of \$2.40, or twelve stamps, in order to receive the '83 Newsletter. The \$2.40 is optional but you'll miss out on what the new Newsletter editor, Dorothy Thomson, has to say in '83!

Remember, your chapter is a non-profit organization and it depends on your dues to operate. You can mail your dues to Don Barnhart or pay at the January '83 meeting.

December Program

Our December program was provided by John Adolfson and Dick Ervin. The program covered soldering and welding of metals. Dick discussed lead tin and silver soldering. He also covered Oxy-Acet. welding and proper setting of torches. A lengthy question and answer session followed, centering mostly on tac welding.

Thanks John and Dick for an informative and interesting program.
