

EXTRA!! EXTRA!! EXTRA!!

VOLUME 1, ISSUE EXTRA

Joe Hanley:

Joey came to the attention of our chapter at a local EAA event two years ago. As a Young Eagle he showed an enthusiasm and strong interest in aviation. Joey's mother and father have supported his efforts and become chapter members. They have participated in chapter fund raising events along with Joey.

Joey has excelled in his academic work at school and as an outstanding athlete on a traveling gymnastics team. He attended the EAA Air Academy last summer and has flown with a number of chapter members learning everything he can about aviation. He has flown in every thing from a Champ to a Cessna CJ. As one chapter member said; "he is like a sponge, soaking up everything we teach him". Chapter 67 is proud to sponsor Joey Hanley to the 2012 Air Academy.

EAA Chapter 67 normally meets the first Monday of each month at 7:30 PM at the Noblesville Airport (Pitch-in dinner 6:30). Please check the calendar since there are occasional exceptions:
[Noblesville Airport \(180\)](#)
[14782 Promise Road](#)
[Noblesville, Indiana 46060](#)

FOR IMMEDIATE RELEASE:

ACCEPTED TO AIR ACADEMY

EAA AVIATION CENTER, OSKOSH, WISCONSIN. The Experimental Aircraft Association, Inc. and EAA Chapter 67, Noblesville, proudly announce that **JOEY HANLEY** of **INDIANAPOLIS, IN** has been accepted to attend the EAA Basic Air Academy 2012 in Oshkosh, Wisconsin. EAA Chapter 67 is a proud sponsor of Joey Hanley.

The EAA Air Academy offers young people the opportunity to meet and work with aviation professionals, while living and learning the arts, sciences, and lore of aviation in both classroom and workshop settings.

He joins many other young people, ages 14-15, in this aviation program. Participants in the EAA Air Academy come from around the United States and several foreign countries.

Academy activities will include flight experience, workshops, and classroom study. EAA's Manager of Museum Operations & Resident Education, Bob Campbell, says, "The EAA Air Academy teaches young people new skills and instills a pride of craftsmanship. More importantly, it develops their leadership potential and broadens their understanding of both aviation and themselves. The EAA Air Academy is a benchmark of personal experience . . . and an aviation experience that will last a lifetime."

Campbell added that "those who are interested in attending any of EAA's Air Academy Programs, should write to: Experimental Aircraft Association, Inc., Resident Education Office, PO Box 3086, Oshkosh, Wisconsin 54903-3086. EAA Chapter 67 sponsors young people to attend the Air Academy with funds raised from the three Fly-In events conducted at the Noblesville Airport. Applicants need not be EAA members. The prime consideration is an interest and enthusiasm for aviation."
